Numbers Served – Substance Abuse Treatment: In FY 2013/2014, 24,060 Hoosiers were admitted into substance abuse treatment through SAPT Block Grant-funded programs. This data includes detoxification treatment (24 hour care), rehabilitation/residential treatment, ambulatory (outpatient), and opioid replacement therapy.

Indiana treatment admissions by primary substance of abuse (TEDS, 2014):

- Marijuana: 20.8%
- Alcohol with secondary drug: 18.7%
- Alcohol: 16.3%
- Heroin: 12.3%
- Prescription opioid pain relievers: 12.0%
- Amphetamines: 10.2%
- Cocaine (smoked): 2.5%
- Cocaine (other route): 1.3%

Numbers Served – Substance Abuse Prevention: In FY 2013/2014, 70,563 Hoosiers received preventive services. Of those, 30,909 persons received preventive services from individual-based programs and strategies, and 39,654 received preventive services from population-based programs and strategies.

Federal Substance Abuse Prevention and Treatment (SAPT) Block Grant: The SAPT Block Grant serves as the cornerstone of each State's substance abuse prevention, treatment, and recovery system. By statute, 20 percent of the SAPT Block Grant must be dedicated to critical substance abuse prevention services. The grant is allotted to States by a formula based on the overall funding level set by Congress each year. Indiana received the following SAPT Block Grant allotments for the past four years:

- FY 2016: \$32,246,086
- FY 2015: \$32,038,656
- FY 2014: \$32,017,858
- FY 2013: \$31,301,396

Opioid Overdose Deaths

Opioid overdose deaths have been on the rise nationally and in Indiana.

- 2011 Heroin Deaths: 69 (1.1 per 100,000)
- 2014 Heroin Deaths: 174 (2.6 per 100,000)
- 2011 Prescription Opioid Deaths: 185 (2.8 per 100,000)
- 2014 Prescription Opioid Deaths: 162 (2.5 per 100,000)
