

The National Association of State Alcohol and Drug Abuse Directors (NASADAD)

FY 2019 Appropriations

February 2019 Update

On September 28, 2018, President Trump signed into law a bill that funds some federal departments and agencies, including the Departments of Labor, Health and Human Services (HHS), Education, and Related Agencies, for fiscal year 2019 (October 1, 2018-September 30, 2019).

Then, on February 15, 2019, Congress and the President reached an agreement on final appropriations for the rest of the federal government, including programs within the Department of Justice (DOJ) and the White House Office of National Drug Control Policy (ONDCP). This document outlines funding levels for NASADAD's priority programs within HHS, DOJ, and ONDCP.

This overview includes final conference report language, as well as language from the Senate and House Appropriations Committees.

This overview summarizes FY 2019 funding for:

- Department of Health and Human Services (HHS)
 - Substance Abuse and Mental Health Services Administration (SAMHSA)
 - Substance Abuse Prevention and Treatment (SAPT) Block Grant
 - Center for Substance Abuse Treatment (CSAT)
 - Center for Substance Abuse Prevention (CSAP)
 - Center for Mental Health Services (CMHS)
 - National Institute on Alcohol Abuse and Alcoholism (NIAAA)
 - National Institute on Drug Abuse (NIDA)
 - Centers for Disease Control and Prevention (CDC)
 - Health Resources and Services Administration (HRSA)
 - Administration for Children and Families (ACF)
- Department of Justice (DOJ)
- Office of National Drug Control Policy (ONDCP)

Senate Appropriations Committee Report Language on SUD Treatment Facilities

- Substance Use Disorder Treatment Facilities:** “The Committee is concerned about the lack of in-patient substance use disorder treatment facilities in the United States and the inability of state and local governments on the front lines who are already incurring significant additional costs related to the opioid epidemic to unilaterally provide the funding necessary to construct these much-needed facilities. The Committee directs the Secretary of HHS to submit a report to the House and Senate Committees on Appropriations that identifies existing sources of Federal funding that can be used to construct and expand in-patient substance use disorder treatment facilities along with explicit recommendations about what the department can and should do to promote and incentivize the creation of additional in-patient substance use disorder treatment facilities.”

Substance Abuse Prevention and Treatment (SAPT) Block Grant

Program	FY 16	FY 17	FY 18 Omnibus	President’s FY 19 Request	FY 19 Request vs. FY 18	FY 2019	FY 19 vs. FY 18
SAPT Block Grant	\$1,858,079,000	\$1,858,079,000	\$1,858,079,000	\$1,858,079,000	Level	\$1,858,079,000	Level

SAPT Block Grant Language from Senate Appropriations Committee Report

- Substance Abuse Prevention and Treatment Block Grant:** “The Committee recommends \$1,858,079,000 for the Substance Abuse Prevention and Treatment Block Grant [SABG]. The recommendation includes \$79,200,000 in transfers available under section 241 of the PHS Act. The Committee recognizes the importance of the block grant given its flexibility to allow States to direct resources based on their own unique needs. This funding stream is also critical in assisting States to address all substance use disorders, including but not limited to those related to alcohol, cocaine and methamphetamine. The Committee also recognizes the importance of the block grant’s 20 percent primary prevention set-aside, which represents close to 70 percent of prevention dollars managed by State alcohol and drug agencies. The block grant provides funds to States to support alcohol and drug abuse prevention, treatment, and rehabilitation services. Funds are allocated to States according to a formula.”

Additional Opioids Allocation

Program	FY 16	FY 17	FY 18 Omnibus	President's FY 19 Request	FY 19 Request vs. FY 18	FY 2019	FY 19 vs. FY 18
State Targeted Response (STR) to the Opioid Crisis Grants	N/A	\$500,000,000	\$500,000,000	\$1,000,000,000	+\$500,000,000	Not funded	N/A
State Opioid Response (SOR) Grants	N/A	N/A	\$1,000,000,000	Not funded	-\$1,000,000,000	\$1,500,000,000	+\$500,000,000

Opioid Language from Senate Appropriations Committee Report:

- State Opioid Response Grants:** “The Committee provides \$1,500,000,000 for grants to States to address the opioid crisis. Bill language continues to provide \$50,000,000 for grants to Indian Tribes or Tribal organizations and a 15 percent set-aside for States with the highest age-adjusted mortality rate related to opioid overdose deaths. The Committee urges the Assistant Secretary to ensure the formula avoids a significant cliff between States with similar mortality rates. Activities funded with this grant may include bonafide treatment, prevention, and recovery support services. States receiving these grants should ensure that comprehensive, effective, universal prevention strategies, to stop the misuse of opioids before it starts, are a priority for these funds. SAMHSA is 133 directed to work with States to include recovery support services that may include career counseling or job placement to help individuals in recovery from a substance use disorder transition from treatment to the workforce. The Committee directs the agency to ensure funds reach local communities and counties to address the opioid crisis in areas of unmet need. SAMHSA is also directed to provide State agencies with technical assistance concerning how to enhance outreach and direct support to rural and underserved communities and providers in addressing this crisis. SAMHSA shall submit to the Committees on Appropriations of the House of Representatives and the Senate a work plan of the proposed allocation of funds not later than 15 days prior to publishing the funding opportunity announcement. In addition, not later than 1 year after the date of enactment of this Act, SAMHSA shall submit a report to the Committees on Appropriations of the House of Representatives and the Senate that includes a description of the activities for which each State has received funding and the ultimate recipients of the funds provided to States. In addition, SAMHSA shall submit an evaluation of the program not later than 2 years after the date of enactment of this Act. SAMHSA is directed to make the report and evaluation publicly available on SAMHSA’s website.”

Opioid Language from House Appropriations Committee Report:

- “The Committee also continues efforts to support States and local communities combat the national scourge of opioid addiction by including an additional \$500,000,000 for grants to States. The Committee maintains funding levels for opioid abuse prevention, treatment, and recovery and continues to support robust funding for mental and behavioral health.”

SAMHSA's Center for Substance Abuse Treatment (CSAT)

Program	FY 16	FY 17	FY 18 Omnibus	President's FY 19 Request	FY 19 Request vs. FY 18	FY 2019	FY 19 vs. FY 18
CSAT TOTAL	\$335,345,000	\$354,427,000	\$403,427,000	\$255,318,000	-\$148,109,000	\$458,677,000	+\$55,250,000
Addiction Technology Transfer Centers (ATTCs)	\$9,046,000	\$9,046,000	\$9,046,000	\$9,046,000	Level	\$9,046,000	Level
Building Communities of Recovery	N/A	\$3,000,000	\$5,000,000	\$3,000,000	-\$2,000,000	\$6,000,000	+\$1,000,000
Children and Families	\$29,605,000	\$29,605,000	\$29,605,000	\$29,605,000	Level	\$29,605,000	Level
Criminal Justice Activities	\$78,000,000	\$78,000,000	\$89,000,000	\$78,000,000	-\$11,000,000	\$89,000,000	Level
<i>Drug Courts</i>	\$60,000,000	\$60,000,000	\$70,000,000	\$60,000,000	-10,000,000	\$70,000,000	Level
First Responder Training*	N/A	\$12,000,000	\$36,000,000	\$12,000,000	-\$24,000,000	\$36,000,000	Level
<i>Rural Focus*</i>	N/A	N/A	\$18,000,000	Not funded	-\$18,000,000	\$18,000,000	Level
Grants to Prevent Prescription Drug/Opioid Overdose Related Deaths*	\$12,000,000	\$12,000,000	\$12,000,000	\$12,000,000	Level	\$12,000,000	Level
Improving Access to Overdose Treatment	N/A	\$1,000,000	\$1,000,000	\$1,000,000	Level	\$1,000,000	Level
Minority AIDS	\$65,570,000	\$65,570,000	\$65,570,000	Not funded	-\$65,570,000	\$65,570,000	Level
Minority Fellowship	\$3,539,000	\$3,539,000	\$4,539,000	Not funded	-\$4,539,000	\$4,789,000	Level
Opioid Treatment Programs/Regulatory Activities	\$8,724,000	\$8,724,000	\$8,724,000	\$8,724,000	Level	\$8,724,000	Level
Pregnant and Postpartum Women (PPW)	\$15,931,000	\$19,931,000	\$29,931,000	\$19,931,000	-\$10,000,000	\$29,931,000	Level
Recovery Community Services Program	\$2,434,000	\$2,434,000	\$2,434,000	\$2,434,000	Level	\$2,434,000	Level
Screening, Brief Intervention, and Referral to Treatment (SBIRT)	\$46,889,000	\$30,000,000	\$30,000,000	Not funded	-\$30,000,000	\$30,000,000	Level
Targeted Capacity Expansion (TCE) General	\$36,303,000	\$67,192,000	\$95,192,000	\$67,192,000	-\$28,000,000	\$100,192,000	+\$5,000,000
<i>Medication-Assisted Treatment for Prescription Drug and Opioid Addiction (MAT-PDOA)</i>	\$25,000,000	\$56,000,000	\$84,000,000	\$56,000,000	-\$28,000,000	\$89,000,000	+\$5,000,000
Treatment Systems for Homeless	\$41,304,000	\$36,386,000	\$36,386,000	\$36,386,000	Level	\$36,386,000	Level

*First Responder Training program, Rural Focus, and Grants to Prevent Prescription Drug/Opioid Overdose Related Deaths were previously funded within CSAP (FY 2016-FY 2018)

CSAT Language from the Conference Report:

- **State Opioid Response Grants:** “The conferees include \$1,500,000,000 for grants to States to address the opioid crisis. Bill language provides \$50,000,000 for grants to Indian tribes or tribal organizations. In addition, bill language includes a 15 percent set-aside for States with the highest age-adjusted mortality rate related to opioid use disorders. The conferees direct SAMHSA to adhere to the directives under this heading in Senate Report 115-289.”
- **Grants to Prevent Prescription Drug/Opioid Overdose and First Responder Training:** “The conferees encourage SAMHSA to ensure grantees incorporate robust evidence-based intervention training and facilitate linkage to treatment and recovery services.”
- **Medication-Assisted Treatment for Prescription Drug and Opioid Addiction:** “The conferees include \$89,000,000 for the Medication Assisted Treatment for Prescription Drug and Opioid Addiction program. Within this amount, the conferees include \$10,000,000 for grants to Indian tribes, tribal organizations, or consortia.”

- **Report on Medication-Assisted Treatment:** “Not later than 180 days from the date of enactment of this Act, the Assistant Secretary shall submit a report on medication-assisted treatment as described in section 242 of division B of H.R. 6157 as passed by the Senate on August 23, 2018.”
- **Volcanic Eruption:** “The Assistant Secretary shall provide technical assistance to any State or county impacted by a volcanic eruption as stated in section 245 of division B of H.R. 6157 as passed by the Senate on August 23, 2018.”

CSAT Language from Senate Appropriations Committee Report:

- **Building Communities of Recovery:** “The Committee appreciates SAMHSA’s implementation of new funding for communities of recovery in fiscal year 2018 and continues to encourage SAMHSA to promote the expansion of recovery support services as well as reduce stigma associated with addictions.”
- **Combatting Opioid Abuse:** “The Committee provides \$12,000,000 within PRNS for grants to prevent opioid overdose related deaths. This program will help States equip and train first responders and other community partners with the use of devices that rapidly reverse the effects of opioids. The agreement also provides \$36,000,000 for First Responder Training grants. Of this amount, \$18,000,000 is set aside for rural communities with high rates of substance abuse. SAMHSA is directed to ensure applicants outline how proposed activities in the grant would work with treatment and recovery communities in addition to first responders. The Committee has moved this program out of the PRNS account in the Center of Substance Abuse Prevention into the PRNS account of the Center for Substance Abuse Treatment. The Committee believes the funding should be in CSAT to best ensure that, after an overdose is reversed through the use of naloxone, these individuals are given access to a recovery coaching and referral to treatment.”
- **Drug Courts:** “SAMHSA is directed to ensure that drug court funding is allocated to serve people diagnosed with a substance use disorder as their primary condition. **SAMHSA is further directed to ensure that all drug court grant recipients work with the corresponding State substance abuse agency in the planning, implementation, and evaluation of the grant.** SAMHSA should expand training and technical assistance to drug treatment court grant recipients to ensure evidence-based practices are fully implemented.”
- **Medication-Assisted Treatment for Prescription Drug and Opioid Addiction:** “The Committee includes \$84,000,000 for Medication Assisted Treatment. SAMHSA is directed to include as an allowable use Medication Assisted Treatment and other clinically appropriate services to achieve and maintain abstinence from all opioids and heroin. SAMHSA is directed to give preference in grant awards to treatment regimens that are less susceptible to diversion for illicit purposes. These grants should target States with the highest age adjusted rates of admissions, including those that have demonstrated a dramatic age adjusted increase in admissions for the treatment of opioid use disorders. The Committee continues to direct CSAT to ensure that these grants include as an allowable use the support of medication assisted treatment and other clinically appropriate services to achieve and maintain abstinence from all opioids and heroin and prioritize treatment regimens that are less susceptible to diversion for illicit purposes.”
- **Minority Fellowship Program:** “The Committee provides \$5,039,000, a \$500,000 increase above fiscal year 2018, and continues to include \$1,000,000 for funding to grantees to develop and implement fellowships in psychology, addiction psychiatry, and addiction medicine with specific focus in addressing the needs of individuals with substance use disorders.”
- **Neonatal Abstinence Syndrome:** “The Committee is pleased to see SAMHSA publish guidance for healthcare professionals for a clinical guide for national standard of evaluation, care, 132 and treatment of women with opioid use disorders and infants with NAS. The Committee supports the continued efforts of expanded implementation of Screening, Brief Intervention, and Referral to Treatment [SBIRT], and its possible impact on reducing the costs of NAS.”

- **Opioid Abuse in Rural Communities:** “The Committee is aware that response to the opioid abuse crisis poses unique challenges for rural America. The Committee encourages SAMHSA to support initiatives to advance opioid abuse objectives in rural areas, specifically focusing on addressing the needs of individuals with substance use disorders in rural and medically-underserved areas, and programs that stress a comprehensive community-based approach involving academic institutions, health care providers, and local criminal justice systems.”
- **Opioid Grants:** “The Committee recognizes the work moving forward under the SOR program and the State Targeted Response to the Opioid Abuse Crisis grant program. The Committee directs SAMHSA to ensure these resources are aligned with the State plan developed by each State’s alcohol and drug agency as defined by the agency that manages the SAPT Block Grant. This will ensure continuity of funding and coordination of efforts within each State system.”
- **Pregnant and Postpartum Women:** “The Committee commends SAMHSA for funding three grants in fiscal year 2017 under the new PPW pilot program authorized under the Comprehensive Addiction and Recovery Act [CARA], which is designed to help State alcohol and drug agencies address treatment gaps for pregnant and postpartum women with substance use disorders, including opioid use disorders. The Committee looks forward to SAMHSA’s expansion of the pilot program in fiscal year 2018, and encourages the agency to prioritize States that support best-practice collaborative models for the treatment and support of pregnant women with opioid use disorders.”
- **Screening, Brief Intervention, Referral, and Treatment:** “The Committee recognizes that SBIRT is still not widely adopted and has not yet permeated broader healthcare or social service networks, particularly in underserved communities most affected by the opioid epidemic. The Committee encourages SAMHSA to use funds for the adoption of SBIRT protocols in primary care and other appropriate settings that serve youth 12 to 21 years of age as well as on the adoption of system-level approaches to facilitate the uptake of SBIRT into routine health care visits for adults.”
- **Systems of Care Models in Opioid Response:** “Evidence suggests that regional efforts to coordinate opioid abuse treatment across entities and locations can produce effective results. Successful examples include the development of “no wrong door” treatment models, mechanisms to scale-up training and numbers of peer coaches, and the use of mobile app technology to enhance access to services, successful treatment outcomes, and long-term relapse prevention. SAMHSA should encourage State and local grantees to prioritize the implementation of coordinated continuum of care approaches.”

CSAT Language from House Appropriations Committee Report:

- **Medical Provider Education on Opioid Treatment:** “The Committee provides \$22,000,000 for carrying out medical and other healthcare practitioner education. The Committee directs SAMHSA to provide grants to medical schools, schools of nursing, social work, physician assistants, and other colleges and universities to ensure that training in the field of substance use disorders, including opioid use disorders, is incorporated into the standard curriculum of the university programs. Activities should include both didactic and hands on training for students. Funds should support Drug Addiction Treatment Act of 2000 waiver training for designated practitioners to be able to engage in office based treatment for substance use disorders, including opioid use disorders. The Committee expects training and practice requirements to be consistent with section 303(g)(2) of the Controlled Substances Act, including diversion control, relapse prevention, overdose reversal, detoxification, and the clinical use of FDA-approved medications. These grants are expected to generate a well-equipped workforce to address the behavioral health needs of individuals across the country and ultimately close the substance use disorder treatment gap.”
- **Screening, Brief Intervention and Referral to Treatment:** “The Committee does not provide funding for Screening, Brief Intervention and Referral to Treatment, which is \$30,000,000 below the fiscal year 2018 enacted program level, and the same as the fiscal year 2019 budget request program level.

- **Reducing Underage Drinking through Screening and Brief Intervention:** “The Committee provides \$2,000,000 for grants to pediatric health care providers in accordance with the specifications outlined in section 9016 of the 21st Century Cures Act (PL 114–255). Training grants should focus on screening for underage drinking, opioid use, and other drug use.
- **Targeted Capacity Expansion:** “The Committee recommends \$123,192,000 for Targeted Capacity Expansion activities. Of this amount, \$112,000,000 is for services that address prescription drug abuse and heroin use in high-risk communities. Within the \$112,000,000, the Committee provides \$15,000,000 for grants to Indian Tribes, Tribal organizations, or consortia. SAMHSA should target funds to grantees located in States with the highest rates of admissions and that have demonstrated a dramatic increase in admissions for the treatment of opioid use disorders.
“The Center for Substance Abuse Treatment is directed to include as an allowable use medication-assisted treatment and other clinically appropriate services to achieve and maintain abstinence from all opioids and heroin and prioritize treatment regimens that are less susceptible to diversion for illicit purposes. Further, for the additional funds, the Committee directs SAMHSA to prioritize grants from nonprofit organizations and political subdivisions of States.”
- **Grants to Prevent Prescription Drug/Opioid Overdose and First Responder Training:** “The Committee notes strong concerns about the increasing number of unintentional overdose deaths attributable to prescription and nonprescription opioids. SAMHSA is urged to take steps to encourage and support the use of Substance Abuse and Prevention Block Grant funds for opioid safety education and training, including initiatives that improve access for licensed healthcare professionals, including paramedics, to emergency devices used to rapidly reverse the effects of opioid overdoses. Such initiatives should incorporate robust evidence-based intervention training, and facilitate linkage to treatment and recovery services.”
- **Pregnant and Postpartum Women:** “The Committee provides \$29,931,000 for Pregnant and Postpartum Women, which is the same as the fiscal year 2018 enacted level and \$10,000,000 more than the fiscal year 2019 budget request.
“The Committee recognizes the importance of treatment for women during pregnancy who are at risk for opioid dependence and opioid exposure during pregnancy, and infants born with neonatal abstinence syndrome. A 2015 GAO report stated that the most frequently cited program gap was the lack of available treatment programs for pregnant women. There is a need for increased available treatment options for pregnant women, especially in States with large populations and few treatment programs available. The Committee encourages SAMSHA to provide grants to expand existing treatment programs for women and infants in States with fewer than three available programs.
“Substance use during pregnancy, particularly the misuse of opioids, has increased in parallel with the national rate of opioid misuse. While much attention has been paid to the negative impacts of opioid use on the fetus and newborn, less attention has been given to the pregnant woman. The Committee encourages cross-HHS collaboration between research and public health programs, as well as engagement with health care providers and patients to ensure that the care and treatment of pregnant women with substance use disorder is considered and included in any national efforts to address the opioid epidemic. The Committee requests an update on these efforts in the fiscal year 2020 Congressional Justification.”
- **Criminal Justice Activities:** “The Committee provides \$99,000,000 for the Criminal Justice Activities program, which is \$10,000,000 above the fiscal year 2018 enacted level and \$21,000,000 more than the fiscal year 2019 budget request. Of this amount, the Committee directs that not less than \$80,000,000 will be used exclusively for Drug Court activities.
“Drug Courts: The Committee continues to direct SAMHSA to ensure that all funding appropriated for Drug Treatment Courts is allocated to serve people diagnosed with a substance use disorder as their primary condition. The Committee directs SAMHSA to ensure that all drug treatment court grant recipients work directly with the corresponding State substance abuse agency in the planning, implementation, and evaluation of the grant. The Committee further directs SAMHSA to expand training and technical assistance to drug treatment court grant recipients to ensure evidence-based practices are fully implemented.”

SAMHSA's Center for Substance Abuse Prevention (CSAP)

Program	FY 16	FY 17	FY 18 Omnibus	President's FY 19 Request	FY 19 Request vs. FY 18	FY 2019	FY 19 vs. FY 18

CSAP Language from the Conference Report:

- **Center for the Application of Prevention Technologies:** “The conferees encourage the Assistant Secretary to expand eligibility for grants under SAMHSA's Prevention Programs of Regional and National Significance and the corresponding services provided by the Center for the Application of Prevention Technologies to private, non-profit, regional organizations, including faith-based organizations. In addition, the conferees direct SAMHSA to submit a report on this program, including the rationale behind the structural and organizational changes, by September 30, 2019.”

CSAP Language from Senate Appropriations Committee Report:

- **Best Practices for Opioid Abuse Prevention:** “The Committee encourages SAMHSA to develop and educate States and communities on best practices for addressing the opioid abuse crisis as it relates to opioid prescribing, pain management, screening, and linkage to care. SAMHSA is further encouraged to develop training materials for health care providers and trainees in opioid use and other addictive disorders.”
- **Centers for the Application of Prevention Technology (CAPTs):** “The Committee is aware that SAMHSA has changed the structure of the CAPTs to mirror that of the Addiction Technology Transfer Centers. In addition, SAMHSA has moved the management of the CAPTs outside of CSAP, a change that was not reflected in the fiscal year 2019 budget justification. The Committee directs SAMHSA to submit a report on this program, including the rationale behind the structural and organizational changes, by September 30, 2019.”
- **First Responder Training:** “The Committee notes that overdose reversal is a lifesaving strategy that reduces the harm of overdoses but does not prevent the initiation of drug use. For this reason the Committee has transferred \$48,000,000 of overdose reversal funding out of the PRNS account in the Center of Substance Abuse Prevention into the PRNS account of the Center for Substance Abuse Treatment. The Committee believes the funding should be in CSAT to best ensure that, after an overdose is reversed through the use of naloxone, these individuals are given access to a recovery coaching and referral to treatment.”
- **Strategic Prevention Framework-Partnerships for Success Program:** “This program supports States in addressing underage drinking among youth and young adults and allows States to prioritize State-identified top data-driven substance abuse target areas. Given that substance use disorders typically

begin in adolescence and that preventing or delaying the age of first use is cost-effective, the Committee provides last year's funding level for this program. Of the provided amount, \$109,484,000 shall support comprehensive, multi-sector substance use prevention strategies to stop or delay the age of initiation of the State's top three substance use issues for 12 to 18 year old youth, as determined by State epidemiological data, and shall not be used for any programs or services to address substance use after it has already occurred."

CSAP Language from House Appropriations Committee Report:

- **Center for the Application of Prevention Technologies:** "The Committee directs the Secretary to expand eligibility for grants under SAMHSA Prevention Programs of Regional and National Significance and the corresponding services provided by the Center for the Application of Prevention Technologies to private, non-profit, regional organizations, including faith-based organizations. The broad coalitions orchestrated by these regional organizations are uniquely positioned to supplement the work already being done by the State, Tribal and community organizations currently authorized for such grants."
- **Minority Fellowship Program:** "Culturally competent behavioral health services are necessary to meet demand and behavioral health challenges facing communities across the US, including the opioid epidemic. In addition, significant behavioral health disparities persist in diverse communities across the US. There are persistent health disparities between different racial and ethnic populations, and health equity remains a challenge with minorities receiving less mental health and addiction treatment and lower-quality care. To meet this need, the Minority Fellowship Program (MFP) has been increasing the number of culturally competent behavioral health professionals providing mental health and substance use disorders services to underserved populations. The MFP provides support to behavioral health professionals in the fields of psychiatry, psychology, social work, nursing, marriage and family therapy, counseling and addictions. The MFP is the only Federal program supporting culturally competent mental health and substance use disorders professionals."
- **Opioid Prevention Grants:** "The Committee notes that substance use prevention, to stop misuse of opioids before it starts, has been underutilized despite its potential to reduce the pathway to addiction and that the most effective approach to dealing with prevention is comprehensive planning and implementation of multiple strategies across multiple sectors of a community. The Committee includes \$25,000,000 for opioid prevention grants. The Committee intends for such grants to enable multi-sector community organizations to receive grants of up to \$150,000 to partner with relevant community sectors to implement at least one strategy, program, or activity across the allowable uses of funds and then evaluate progress in reducing population levels of opioid misuse in the community using baseline data, which shall then be collected every two years for the target population. Funds may be used for the implementation of an array of strategies, programs, and activities across each of the following: reduce access to and availability of opioids; change social norms in the community about misusing opioids; build skills with scale and scope in parents/caregivers, youth, school personnel, the medical community, law enforcement, youth serving organizations, fraternal or faith based organizations, and the media through targeted education, training, and skills building; change community-wide incentives and policies to deter opioid misuse; and implement evidence based substance use prevention programs and curricula in schools and other venues to reach the target population."

CMHS Language from the Conference Report:

- **Project AWARE:** “Within the amount provided for Project AARE, the conferees include not less than \$10,000,000 for discretionary grants as described in Senate Report 115-289.”
- **Suicide Lifeline:** “The conferees include \$12,000,000 for the National Suicide Prevention Lifeline, an increase of \$4,802,000. The conferees support efforts to expand and enhance access to the suicide lifeline nationwide.”
- **National Child Traumatic Stress Initiative:** “The conferees include an increase of \$10,000,000 for the National Child Traumatic Stress Initiative. This increase is for the following activities, which are subject to the first proviso under this heading in the accompanying bill language: (1) \$4,000,000 for mental health services for unaccompanied alien children, with a special focus on children who were separated from a parent or family unit and subsequently classified as unaccompanied alien children, (2) \$3,000,000 for mental health services for children in Puerto Rico, (3) \$1,000,000 to expand access to tribal populations, and (4) \$2,000,000 for activities authorized under section 582(d) and (e) of the Public Health Service Act. In order to award funds not later than December 1, 2018, the conferees direct SAMHSA to take administrative action that would provide supplemental awards to existing grantees in the National Child Traumatic Stress Network who have already received Federal funding through a competitive process.”
- **Certified Community Behavioral Health Clinics:** “The conferees include \$150,000,000 for the Certified Community Behavioral Health Clinics program. SAMHSA should award funds in accordance with the directives found under this heading in Senate Report 115-289.”

National Institute on Alcohol Abuse and Alcoholism (NIAAA)

Program	FY 16	FY 17	FY 18 Omnibus	President’s FY 19 Request	FY 19 Request vs. FY 18	FY 2019	FY 19 vs. FY 18

Additional Opioids Allocation	N/A	N/A	N/A	\$175,000,000	+\$175,000,000	N/A	N/A

CDC Language from the Conference Report:

- **Infectious Diseases and the Opioid Epidemic:** “The conferees direct CDC to focus efforts on improving surveillance, treatment, and education efforts around hepatitis B, hepatitis C, and HIV infections as it relates to the opioid epidemic. CDC is directed to prioritize funding for those areas most at risk for outbreaks of HIV and hepatitis due to injection drug use.”

CDC Language from Senate Appropriations Committee Report:

- **Opioid Abuse in Native Communities:** “The Committee understands that American Indians and Alaska Natives overdose on opioids at the highest rate in the United States and recognizes the importance of addressing the disproportionate impact of the opioid crisis in Native communities. The Committee directs CDC to work with the Indian Health Service to ensure federally-operated and tribally-operated healthcare facilities benefit from the Center’s PDMP efforts.

- **Opioid Drug Overdose [PDO] Prevention:** “The Committee includes \$475,579,000, and reflects continued strong support of CDC PDO activities. CDC shall continue to use funds to advance the understanding of the opioid overdose epidemic and scale up prevention activities across all 50 States and the District of Columbia. The Committee expects that this will include the expansion of case level syndromic surveillance data, improvements of interventions that monitor prescribing and dispensing practices, better timeliness, and quality of morbidity and mortality data, as well as the enhancement of efforts with medical examiners and coroner offices. CDC shall promote the use of Prescription Drug Monitoring Programs [PDMPs], including implementation of activities described in the National All Schedules Prescription Electronic Reporting Act of 2005 as amended by the Comprehensive Addiction and Recovery Act of 2016. This shall include continuing to expand efforts to enhance the utility of PDMPs in States and communities, making them more interconnected, real-time, and usable for public health surveillance and clinical decision-making. The Committee encourages CDC to ensure State PDMP implementation and improvements are coordinated with respective State alcohol and drug agencies. CDC shall also promote alternative surveillance programs for States and communities that do not have a PDMP. CDC is encouraged to work with the Office of the National Coordinator for Health Information Technology to enhance the integration of PDMPs and electronic health records. Further, the Committee is encouraged to ensure that Federal funding allocated to respond to the opioid epidemic flows from the States into communities and local health departments as practicable and encourages CDC to support local prevention activities to determine the effectiveness of naltrexone in treating heroin and prescription drug abuse as well as reducing diversion of buprenorphine for illicit purposes. Finally, CDC shall use \$10,000,000 of the funds provided to conduct an opioid nationwide awareness and education campaign.”
- **Opioid Prescribing Guidelines:** “The Committee applauds CDC’s Guidelines for Prescribing Opioids for Chronic Pain and encourages CDC to continue its work to support uptake and use of the Guidelines. The Committee understands that current guidelines do not distinguish between Schedule 3 and Schedule 2 opioids and encourages CDC to adopt guidelines to reduce the risk of addiction by starting with a Schedule 3 prescription before considering Schedule 2. CDC is further directed to continue robust implementation of use of the electronic tool to train providers on incorporating and applying the CDC Guidelines in primary care settings and through efforts to increase continuing education. The Committee encourages CDC to coordinate with VA and DOD on implementation and any new developments in safe prescribing practices to ensure consistent, high-quality care standards across the Federal Government. The Committee notes that prescribing for acute pain remains a significant driver of initial opioid prescriptions, especially for youth, and that numerous States have established limits on initial opioid prescriptions, while substantial research has examined the use of non-opioid therapies for acute pain. The Committee encourages CDC to continue its leadership in prevention of the opioid epidemic by developing prescribing guidelines for acute pain, including those which are applicable to emergency physicians, surgeons, and dentists.”

CDC Language from House Appropriations Committee Report:

- **Opioid Overdose Surveillance:** “The Committee continues to support the use of data to support forecasting of opioid-related overdose risk, including by geographic region. The Committee encourages CDC to initiate a demonstration project in States experiencing the highest rates of opioid-related overdose to use data to develop forecasts that public health officials can use to intervene and prevent overdoses.”
- **Prescription Drug Overdose:** “The Committee commends CDC for its leadership on combatting prescription and opioid drug overdoses. The Committee encourages CDC to implement these activities based on population-adjusted burden of disease criteria, including mortality data (age-adjusted rate), as significant criteria when distributing funds for the State PDO Prevention activities. The Committee assumes these funds will be distributed via a competitive mechanism and not merely a mathematical formula or standard allocation to each State. Further, the Committee strongly encourages CDC to support local prevention activity to determine the effectiveness of medication-approved treatment modalities in treating heroin and prescription drug abuse and reducing diversion of buprenorphine for illicit purposes.”

- Viral Hepatitis and Injection Drug Use:** “The Committee notes that there has been a nationwide increase in new viral hepatitis diagnoses and regional increases in HIV diagnoses attributed to injection drug use associated with the opioid epidemic. Research shows that awareness of one’s HIV infection status can increase motivation to begin substance use disorder treatment, especially when medication-assisted treatment is integrated with antiretroviral treatment for HIV patients. The Committee looks forward to working with HHS to ensure opioid resources address the overlapping public health testing activities for affected communities.”

Health Resources and Services Administration (HRSA) – Select Programs

Program	FY 16	FY 17	FY 18 Omnibus	President’s FY 19 Request	FY 19 Request vs. FY 18	FY 2019	FY 19 vs. FY 18

Ryan White HIV/AIDS Program	\$2,322,781,000	\$2,318,781,000	\$2,318,781,000	\$2,260,170,000	-\$58,611,000	\$2,318,781,000	Level

HRSA Language from the Conference Report:

- National Health Service Corps:** “The conferees include \$105,000,000 for the National Health Service Corps to expand and improve access to quality health care and substance use disorder treatment in rural and other underserved areas nationwide. The conferees continue eligibility for loan repayment awards through the National Health Service Corps for substance use disorder counselors. Of the amount provided, the conferees include \$15,000,000 for the Rural Communities Opioid Response within the Office of Rural Health and \$15,000,000 for placement at health care facilities within the Indian Health Service.”

HRSA Language from Senate Appropriations Committee Report:

- Rural Communities Opioid Response:** “While the opioid epidemic has affected both urban and rural counties, the burden in rural areas is significantly higher. Rural communities face a number of challenges in gaining access to healthcare in general, and substance abuse treatment in particular. CDC has found that drug-related deaths are 45 percent higher in rural communities, and that rural states are more likely to have higher rates of overdose deaths. The Committee provides \$120,000,000 to address substance abuse, including opioid abuse, and the overdose crisis in rural communities. Within the funding provided, the Committee includes \$20,000,000 for the establishment of 3 rural centers of excellence on substance use disorders to support the dissemination of best practices related to the treatment for and prevention of substance use disorders within rural communities. The centers will focus on the current opioid crisis and developing methods to address future substance use disorder epidemics. This funding, in addition to the \$100,000,000 provided last year, will continue efforts to allow communities to develop plans to address local needs. In addition, the Committee recommendation allows the Department of Labor to use a portion of career and training funding focused on the ARC and DRA regions to assist individuals who are returning, entering, or seeking to maintain participation in the workforce after being affected by an opioid abuse disorder.”

HRSA Language from House Appropriations Committee Report:

- Neonatal Abstinence Syndrome:** “The Committee is alarmed by reports that the leading cause of maternal mortality in a growing number of States is overdose and suicide, with a direct connection to the opioid epidemic. The Committee also recognizes the work done to implement the Protecting Our Infants Act of 2015 (PL 114– 91), which culminated in a strategy to address gaps in research; overlaps, duplication, or gaps in the relevant Federal programs; and coordination of Federal efforts to address neonatal abstinence syndrome with recommendations regarding maternal and child prevention, treatment, and services. An October 2017 GAO report entitled “Newborn Health: Federal Action Needed to Address Neonatal Abstinence Syndrome” recommended that HHS expeditiously develop a plan for implementing the recommendations included in the strategy. The Committee requests an update in the fiscal year 2020 Congressional Justification on implementation of recommendations outlined in the strategy and identification of barriers to implementation, including specifics on any areas where Congressional action is needed.”

<i>Child Abuse Prevention and Treatment Act (CAPTA) State Grants</i>	\$25,310,000	\$25,310,000	\$85,310,000	\$25,310,000	-\$60,000,000	\$85,310,000	Level
<i>Child Welfare Services</i>	\$268,735,000	\$268,735,000	\$268,735,000	\$268,735,000	Level	\$268,735,000	Level
Title IV-E Foster Care (projected)	\$4,799,573,280	\$4,992,000,000	\$5,537,000,000	\$5,350,000,000	-\$187,000,000	\$5,329,000,000	-\$208,000,000

ACF Language from the Conference Report:

- Regional Partnership Grants:** “The conferees include \$20,000,000 for Regional Partnership Grants to improve the coordination of services for children and families affected by opioid and other substance use disorders. The conferees strongly encourage ACF to prioritize applicants who will focus on preparing programs to qualify as evidence-based foster care prevention services under the Family First Prevention Services Act (P.L. 115-123), to include family focused residential treatment programs, which help families remain together safely while parents receive treatment.”

ACF Language from Senate Appropriations Committee Report:

- Regional Partnership Grants [RPGs] and Family-Focused Residential Treatment Programs:** “Within the total for discretionary funding, the Committee recommendation includes \$20,000,000 for RPGs and family-focused residential treatment programs. RPGs promote coordination and collaboration between local child welfare and substance abuse treatment agencies, and other related organizations, to improve services and outcomes for children and families affected by substance use disorder, particularly opioid use. Family-focused residential treatment programs are trauma-informed residential programs primarily for substance use disorder treatment for pregnant and postpartum women and parents and guardians that allow children to reside with their mothers, parents, or guardians during treatment to the extent appropriate and applicable. Organizations applying for this funding

should be allowed to apply to operate one or both programs. This funding will help build the evidence-base of what works in anticipation of the availability of mandatory funding for similar activities under the Family First Prevention and Services Act.”

- Preventive Services for Children At-Risk of Entering Foster Care:** “The Committee provides \$20,000,000 in continued funding for Kinship Navigator Programs. This program improves services available to grandparents and other relatives taking primary responsibility for children because the child’s parent is struggling with opioid addiction or substance use disorder. The recommendation also includes \$20,000,000 for Regional Partnership Grants and family-focused residential treatment programs, to improve the coordination of services for children and families affected by opioid and other substance use disorders and help families remain together during treatment. Funding for both of these programs will help build the evidence-base of what works for children and families to prevent children from entering the foster care system, consistent with changes made in the Family First Prevention Services Act.”
- Child Abuse Prevention and Treatment State Grants:** “The Committee recommendation includes \$85,310,000 for the Child Abuse Prevention and Treatment State Grant program. This program provides formula grants to States to improve their child protective service systems.”
- Infant Plans of Safe Care:** “Within the total, the Committee recommendation includes \$60,000,000 to help States develop and implement plans of safe care as required by section 106(b)(2)(B)(iii) of CAPTA. The incidence of neonatal abstinence syndrome has increased as the opioid crisis has worsened, and this funding will help States improve their response to infants affected by a substance use disorder and their families. The Committee strongly encourages HHS to encourage States to include in their plans specialized services for parents whose children may be at risk of abuse or neglect in order to reduce the need for child welfare or foster care system involvement. Finally, the Committee directs HHS to provide technical assistance to States on best-practices and evidence-based interventions in this area to help address the health, safety, and substance use disorder treatment needs of the child and family, and to evaluate State’s activities on plans of safe care.”

Department of Justice (DOJ) – Select Programs

Program	FY 16	FY 17	FY 18 Omnibus	President’s FY 19 Request	FY 19 Request vs. FY 18	FY 2019	FY 19 vs. FY 18
Drug Enforcement Administration	\$2,080,000,000	\$2,102,976,000	\$2,609,900,000	\$2,441,500,000	-\$168,400,000	\$2,687,703,000	+\$77,803,000

DOJ language related to opioids in Conference Report:

Fighting the Opioid Epidemic: “The agreement includes significant increases in both law enforcement and grant resources for the Department of Justice (DOJ) to continue combating the rising threat to public health and safety from opioid and heroin use and drug trafficking. This includes a total of \$468,000,000, an increase of \$21,500,000 more than fiscal year 2018, in DOJ grant funding to help State, local, and tribal communities respond to the opioid crisis. The Drug Enforcement Administration (DEA) is also funded at \$2,687,703,000, an increase of \$77,803,000 more than fiscal year 2018, to help fight drug trafficking, including heroin and fentanyl. Funding for DEA will also expand interdiction and intervention programs including the addition of at least four new heroin enforcement teams and DEA 360 Strategy programming.”

DOJ language related to opioids in Senate Appropriations Committee Report:

“The Committee continues its commitment to helping States and local communities in the fight against heroin and the illegal use of opioids through comprehensive programs covering law enforcement, prevention, and treatment. A total of \$482,500,000 in DOJ grant funding is provided to help our State and local partners tackle this epidemic, an increase of \$36,000,000 above the fiscal year 2018 level, including increased funding for programs covered under the Comprehensive Addiction and Recovery Act and Community Oriented Policing Services [COPS] Anti-Heroin Task Forces.”

DOJ language related to opioids in House Appropriations Committee Report:

“The bill provides substantial resources to address the opioid epidemic. To assist State and local governments, the bill provides \$380,000,000, which is an increase of \$50,000,000 over fiscal year 2018 and \$277,000,000 above fiscal year 2017, for grants authorized by the Comprehensive Addiction and Recovery Act.”

Medication-assisted treatment: “The Committee encourages [Bureau of Prisons] BOP to make abstinence-based relapse prevention treatment options available to inmates with a history of opioid dependence.”

Office of National Drug Control Policy (ONDCP)

Program	FY 16	FY 17	FY 18 Omnibus	President’s FY 19 Request	President vs. FY 18	FY 2019	FY 19 vs. FY 18
Office of National Drug Control Policy*	\$379,857,000	\$388,145,000	\$415,493,000	\$29,240,000	-\$386,253,000	\$416,727,000	+\$1,234,000
<i>Drug Free Communities (DFC)</i>	\$95,000,000	\$97,000,000	\$99,000,000	Not funded within ONDCP	-\$99,000,000	\$100,000,000	+1,000,000
<i>High-Intensity Drug Trafficking Area (HIDTA) Program</i>	\$250,000,000	\$254,000,000	\$280,000,000	Not funded within ONDCP	-\$280,000,000	\$280,000,000	Level

*President’s FY 2019 proposed total for ONDCP includes \$17,400,000 for operations, and \$11,840,000 for other federal drug control programs.

ONDCP Language from Senate Appropriations Committee Report:

“The Committee recommends an appropriation of \$18,400,000 for ONDCP’s salaries and expenses. The Committee rejects proposals to transfer the High Intensity Drug Trafficking Areas [HIDTA] and Drug-Free Communities programs to the Department of Justice and the Substance Abuse and Mental Health Services Administration, respectively.

“Opioid Crisis: The Committee is deeply concerned about the opioid crisis, which impacts communities across the country and affects people from all walks of life, with devastating consequences. The Office of National Drug Control Policy is a key participant in efforts to combat this epidemic. As ONDCP carries out its mission, it is critically important to ensure that rural and underserved areas that are hardest-hit in the opioid crisis and which have the highest concentrations of opioid-related cases are sufficiently supported in its programs, policies, and activities.

“Opioid Addiction: As prescription drug monitoring programs successfully control the supply of prescription drugs available, those struggling with substance abuse disorders who are no longer able to obtain or afford prescription opioids often turn to heroin and other opioids. The Committee recognizes the prevalence of opioid addiction and the resultant increase in trafficking of and addiction to heroin and other emergent threats such as fentanyl. The Committee encourages the HIDTA program through ONDCP, to the extent practicable, to prioritize discretionary funds to aid States that have identified heroin and opioid addiction as an emergent threat, and have developed and implemented community responses to combat addiction to heroin and other opioids. HIDTAs enable necessary coordination of law enforcement efforts and support for state and local law enforcement and must continue to play a significant role in the eradication of heroin and prescription drug diversion.”

ONDCP Language from House Appropriations Committee Report:

“The Committee notes the importance of the High Intensity Drug Trafficking Areas (HIDTA) and the Drug-Free Communities (DFC) grant programs in combating the nation’s opioid epidemic. The Committee further notes that the Office of National Drug Control Policy (ONDCP) ensures the HIDTA and DFC programs are equitably managed across federal, state, and local agencies and with the necessary interagency flexibility to address emerging threats. The Committee directs ONDCP to retain operational control over the HIDTA and DFC programs to maintain the interagency benefits needed to address the opioid crisis.”
